

Durex® Cemento EXT

Exterior Decorative Microcement Finish

NEW

Durable microcement finish for exterior wall applications

Durex® Cemento EXT is a premixed 100% acrylic-based coating which is offered in many standard colours as well as custom colours. This product provides the finish touch that adds lasting colour and texture to exterior and interior walls. Durex® Cemento EXT is a two-step finish texture system which replicates the appearance of finely cut stone or cement (base material is Durex® Sandstone and top coat is Durex® Cemento EXT).

IDEAL USE

- **Decorative Finish:** Designed to closely emulate the look of aged stone or finished concrete, Durex® Cemento EXT is perfect for creating a timeless yet modern aesthetic.
- **Colourfast and Durability:** Featuring weather grade durability, Durex® Cemento EXT can be paired with Durex® Kolor Gard to provide extreme colour retention against UV exposure.
- **Versatile Finish:** Although designed for exterior use, Durex® Cemento EXT is perfectly suitable for indoor applications both as primary or accent finish.

FEATURES

- Exceptional durability
- Excellent water repellency; protects surfaces from moisture penetration
- Breathable coating; allows water vapour within the wall system to evaporate
- Excellent adhesion to substrate
- Colourfast, not affected by ultra-violet rays
- Simulates aged stone finish

Available in a multitude of standard colours, and we colour match!

Visit our website for a Colour Guide, and ask your Durabond Representative for more information specifically tailored to your project.
