SEAMLESS & DECORATIVE FLOOR SYSTEMS

Durex[®] DecoArt

DECORATIVE FINISHES FOR COMFORT FLOORING

INTRODUCING

Durex® DecoArt

Tailored style meets unmatched comfort

Step into a world where comfort seamlessly merges with custom design aesthetics, introducing our latest line of decorative floor finishes. Crafted with meticulous attention to detail, our floors not only elevate the ambiance of any space but also provide unparalleled protection and durability. Engineered to resist chemicals and withstand the test of time, each finish is a testament to quality craftsmanship and timeless appeal.

CEMENTECH

Premium microcement finish

GRANITECH

Decorative, epoxy, granite-like finish

MARBLETECH

Resinous, seamless, marble-like finish

CANVAS

Custom finish designed by applicator

Custom Colours Available

Durex® Dur-A-Comfort and DecoArt Finishes can be delivered in any colour so that you, as the architect or builder, can let the floor contribute to the overall design of the building.

Our Team can even create custom solutions to your most specific requirements.

Durex®

DecoArt Canvas

Durex® Canvas for Dur-A-Comfort Floors is a decorative finish that allows for unparalleled creative freedom for Architects and Designers. The design or artwork of the finish can be styled as a pattern or freehanded by the Designer to create fully custom, one-of-kind aesthetic. We work closely with the Architect or Designer to ensure the design results as intended during the application and finish process.

Durex®

DecoArt Cementech

DecoArt Cementech is a continuous, cement-like and polished covering which offers an excellent level of adhesion on different surfaces to achieve an aesthetic change in your bathroom, kitchen, or inside or outside of your house, as well as in offices, businesses or large stores. It is one of the most complete and sought after coverings for achieving areas with a suggestive, personal and distinctive touch in their design.

Durex®

DecoArt Granitech

Granitech is a unique liquid-applied decorative epoxy floor system. It is easily installed as a three-step system to produce a tough durable multi-coloured granite-like finish. Granitech incorporates a coloured epoxy-based primer, a thixotropic multi-coloured coating system with a clear abrasion-resistant topcoat sealer to yield a long-wearing decorative granite-look floor.

The recommendations and information in this chart/document are for the application of Durex® products manufactured by Durabond, and are based on practical knowledge for general site conditions and uses. This chart is to be used as a reference guide only to identify and display the various products for general, non-site specific applications for a variety of installations. Differences in site conditions, preparations, materials are continuously variable and unknown.

As such, no warranty, guarantee or legal binding relationship is implied whatsoever with these products and systems and no guarantee can be made to their performance. In addition, preparation and condition of the substrate is of such utmost importance that a Durabond Technical Representative must be notified prior to installation of any of the aforementioned products and/or systems.

An installer must always prepare the surface to the recommendations found on the current data sheet of each product written and produced by Durabond Technical Coatings Limited. These data sheets can be obtained from Durabond's website, www.durabond.com, or by contacting a Technical Sales Representative directly.
